ATTORNEY, A GREEK, SAYS U. S. SHOULD PROTEST TO TURKEY

Here Declares Abrogation of Treaties Concerns Safety of Americans.

sateries Nicholson, of Washington, D. C. * Greek attorney and student of international law, who is visiting in Philadelphia, today told how the abrogation of the treatics by Turkey was of vital concern to the United States since by that action the safety of every foreign resident in that country was threatened, other Americans who make their permanent home there.

Mr. Nicholson was at the office of here. He is a personal friend of Consul stopped off here to visit the official,

"I do not think," he said, "that the significance of the capitulations made years ago by Turkey and now abrogated is generally appreciated. Under them foreign residents in Turkey have had the right to be judged by their own respective consulates exclusively; secondly, they have possessed special civil privileges such that in all questions of criminal procedure and in fact of general deportment, they have been liable solely to their own governments. Thus, no Turkish official has had the right to enter into the dwelling of a foreigner or arrest one, unless equipped with a specal permit from the consulate concerned. Thirdly, the native government was not allowed to levy professional taxes upon the foreign residents; and fourthly, it could not regulate the amount of its customs duties without the consent of the foreign powers. In general, the shove privileges may be regarded as constituting extra territorial rights, and it is chiefly the ones coming under the first two headings that will affect the status of the Americans living in Turkey. "First there is the legal aspect to be

considered. As others have already pointed out, it is rather astonishing that treaties which have constituted the very condition of Turkey's existence as a State are now abrogated without warning and without negotiation. Such a violation of mutual agreement is a very serious matter indeed, but Turkey knows that now the European Powers are hardly pressed with their own troubles at home and hopes that they will be unable to resort to effective measures in denouncing the start."

"Foreign statesmen of the preceding generations had forced the above con-cessions from the Turkish Government because it was evident to them that under ordinary circumstances the said Govern-ment could not guarantee security and freedom to their nationals. The country had simply not reached that stage in the evolution of political organization which would render it capable of supervising the affairs of the citizens of foreign countries. But with the advent of the new regime in 1888 the Young Turks have been continuously and institutionals. been continuously and insistently clamor-ing for the abrogation of the capitula-tions, claiming that conditions had changed since freedom had been declared and just government had been established, Nevertheless, the Powers refused to con-

"Facts justified their course; the Armeres, troubles in Syria, oppression in Arabia, the insurrection in Al-bania and the maladministration of af-fairs in Macedonia, following immediately after the granting of the constitution, proved that much had yet to be done in the line of political evolution.

"In plain words, Turkish law and ad-ministration is not an effective guarantee of the safety of favores, lives and

ministration is not an effective guarantee of the safety of foreign lives and interests, and has violated treaties that insured that safety. In which case, I think, that it is the duty of the United States, at present the greatest neutral State, to declare to Turkey that this country realizes its own responsibility to its own clitzers as well as to those of the European countries, and that it cannot brook the unwarranted breaking off freaties; and to bring home to the of treaties; and to bring home to the Ottoman Government that this Government is determined to make use of all necessary means to the end of securing proper observance of the treaties by the Ottoman Government."

QUALIFY ON MOTORCYCLES Examination Produces Three Eligi-

bles for Police Service.

Three police candidates qualified in the ecent examination of the civil service commission for lieutenant in the motor-Cycle service. The salary is \$1800 a year.

The eligible list includes William J.
McGowan. 142 South Twenty-fourth street.
Average 72.01: Charles I'. Cassel, 19th Van
Pelt street, average 72.25: George W. Fritz,
113 North Franklin street, average 72.10.
Director of Public Street, Porter was Director of Public Safety Porter was advised by the Civil Service Commission hat the averages attained by the applicants were in the general examination for lieutenant of police. A test of ability to operate a motorcycle was given the sandidates, but did not affect the average. George W. Fritz, one of the eligibles, has been acting lieutenant of the motorcycle Muad at Tenth and Thompson streets for Muad at Tenth and Thompson atreets for the last two years.

ATTEMPTS SUICIDE IN CELL

Awaiting Trial for Arson, Man Makes Noose From Necktie.

Noose From Necklie, Pottrsvill, E. Pa., Sept. 16.—Selling his from in the Beaver Valley, south of this piace, Pavid Beher set out for Texas two rocks are. He began drinking and standoned his trip at St. Louis. Returning to a new home which his family had last bought at Creasona. Reber tried to hum it by igniting papers which he ern it by igniting papers which he pread on the garret floor. He was arested and brought here.

When placed in a cell. Reber made a noise from his necktic and tried to hank himself. The necktic broks with him before life was extinct. He will be tried here for arson.

Leper Taken to Wilkes-Barre

The leper Joseph Norman, who was sent to the Municipal Hospital on Saturday by the health authorities, was taken in an automobile to Wilkes-Barre late as Monday by Dr. A. A. Cairns, of the Bareau of Health. The man will be kept in his home there with his wife and dildren, who are under quarantine.

Sleeping Man Rolls Into River A habit of rolling in his sleep almost trued fatal to William Phillip, of Ninth tad Quarry atsects, who was awakened from a map today on the end of Callow-bill street wharf by falling in the Delarate, His shouts for help were heard by John Lafferty, a watchman, who feed after Phillip as he was sinking for the second time and brought him to bore.

COUNCIL LEADERS HEED PUBLIC CALL FOR BETTER TRANSIT

Friend of Consul Tsakonas Decide to Reapportion Loan and Permit Early Start On New System and Abolition of Exchange Tickets.

Councilmanic leaders, meeting this afternoon in City Hall, virtually agreed to grant the united demand of citizens of Philadelphia and include in the new \$11,700,000 loan bill the Item of \$500,000 insisted upon by Director of City Transit Taylor, as being necessary for the reconstruction of sewers downtown, preincluding thousands of missionaries and paratory to the actual building of subway and elevated street car lines.

The meeting was held in the room of the Subcommittee on Finance. It was Aristotle Tsakonas, the Greek Consul attended by John P. Connelly, chairman of Councils' Finance Committee; Tsakonas, and on his way to New York Harry C. Ransley, president of Select Council; Charles Seger, chairman of the Subcommittee on Finance, and Common Councilman Peter E. Costello.

It was decided a meeting of the Subcommittee on Finance should be called at 1:30 o'clock on Thursday afternoon. Immediately following this and before the special meeting of Common Council on Thursday afternoon there will be a meeting of the general Finance Com-mittee of Councils.

At these meetings the transit item of the new loan will be carefully considered. was said by Councilman Connelly after the meeting today that other items which the present Administration desired included in the new loan bill would also have careful consideration.

The conference this afternoon was called following the statement of Director Tay-lor yesterday, in which the Director showed how every citizen in Philadelphia would suffer through a year's delay in the transit program if Councils stood by their refusal to include an appropriation for transit in the loan.

It was not a meeting of the finance sub-committee, members of that commit-tee explained, but a conference of some of its members to determine the advisa bility of calling a meeting of the sub-committee to reapportion the loan.

CHAIRMAN CONNELLY EXPLAINS. The change in the attitude of Councilmanic leaders, following the strong de-mand that has been made upon them, was reflected by Chairman John P. Connelly of the Finance Committee, today "There is no desire in the Finance Com-mittee to deprive the Transit Department of any funds which it needs," he said.
"In apportioning the loan we cut our cloth according to conditions.

"The Finance Committee received n letailed request from the Transit Department, so it did not pay much attention to it. In the absence of an agreement be tween the city and traction company however, I do not see how the work could

'A meeting of the Subcommittee or Appropriations will be held Thursday next at 1:30 o'clock. A meeting of the Finance Committee will be held immediately afterward before the session of Common Coun cil for the purpose of considering chang-ing certain items in the proposed loan bill. Director Norris, of the Departmen of Wharves, Docks and Ferries, has re-quested a modification of his first state nent which was taken care of in the

original allotment.
"He now desires the article changed from his first request, which I deem of such importance as to require considera-tion by the general committee. At the same time it is expected that careful consideration will be given to the ques-tion of relocating the sewers in the central part of the city as preliminary work to the construction of the Broad street subway construction, for which \$500,000

"Since the original allotment was made additional requests have been filed by the and the Contagious Diseases Hospital at Second and Luzerne streets. These were not provided for in the loan bill because the committee was under the opinion that immediate demands could be better provided for by a transfer of idle funds, which would enable the department to start work at a much earlier date than if the loan bill money were waited for." The amount of the loan will not be changed, it was said today. If the subcommittee recommends that the transit

allotment be included, \$200,000 will be taken from the original allotment of \$1,000,000 for mandarraises; \$200,000 from the \$1,000,000 originally apportioned to the Parkway, and \$100,000 from the origi-nal allotment of \$300,000 for general re-paying. The allotment for general repaying can easily be cut, said Council-men today, because of the expected annual payment of about \$500,000 by the Philadelphia Rapid Transit Company for

nving. Councilman Seger, chairman of the submmittee, had a talk with Doctor Harte this morning, and said that Doctor Harte this morning, and said that Doctor Harte wants \$272,000 to make Byberry and Holmesburg habitable and for repairs at the Municipal Hospital. The items asked by Doctor Harte are: \$40,000 for steam and electric duct pipes at Byberry; \$30,000 for a sewage disposal that at Byberry; \$80,000 for a power plant

city will attend the meeting in the Bingham Hotel tonight, called by William Hancock, President of the United Busihas been definitely determined that Cour ris will include the transit appropria-tion in the loan, they will make an-open demand upon Councils for it. Director Taylor will speak at this meet-ing, and will tell the business men the necessity for an immediate start in the rapid transit program.

The meeting has been called at the request of the Transit Committee of the United Business Men's Association. The situation will be handled without gloves, members of the committee said today. They will institute a movement to co pel the subcommittee to include in the loan the \$500,000 needed to start work on the rapid transit lines.

DEPARTMENT LACKS FUNDS

Can't Pay Physician to Examine

Child Workers. That thousands of children at school age are going to work when physically unfit because there are no funds to pay the salaries of the examining physicians was the statement made by Henry J. Gideon, chief of the Department of Compulsory Education, today.

Heretofore before the department would

fieretofore before the department would grant a certificate permitting a child between hi and hi y ars to go to work the child had to sut it to a physical examination for fitness by authorized physicians. The salaries of these examining physicians have up until this time been paid through private subscriptions, which this fall have not been forthcoming.

Mr. Gideon said that the work might be done by the regular school physicians but in that case the force would have

but in that case the force would have to be increased.

PROPOSED SURFACE FEEDERS IN TRANSIT PLAN The new surface lines which Director Taylor says are badly needed and which will be included in the comprehensive plan for rapid transit include a crosstown line in West Philadelphia on 56th street as a feeder for the Market street elevated and the proposed Darby elevated: the extension of north and south lines, probably the Eighth and Ninth and the 17th street lines, in South Philadeiphia to Oregon avenue; lines from Rising Sun lane and Kensington to above Frankford, and the extension of the Wyoming avenue line to Frankford avenue and Bridge street; the Chew street line in Germantown from Olney avenue to Washington lane; a direct line to Roxborough, which will probably run on Ridge avenue to the centre of the city; additional north and south lines north of Girard College; a new line on North Ninth street and a direct line to Fox Chase.

STRAW HATS BEAT HASTY RETREAT TO VALE OF OBLIVION

Brokers at Commercial Exchange Successfully Execute First Hostile Move Against Summer's Masculine Headgear.

Exit-straw hat.

Today, in accordance with public opinon, the frail headgear bids good-by to fond memories of sunny beaches and impromptu romances. It is true that many ing but a faint memory.

And skilled prophets say that it shall of them had a decidedly tired appearance Department of Health and Charity for even before the official September 15, for be so, certain extensions on improvements to some had done continuous service since the institutions at Hyberry, Holmesburg the Princeton-Penn baseball game in March the Princeton-Penn baseball game in May -the regular debut of this dainty masculine millinery.

There were a few straw hat rushes here and there. Brokers at the Commercial Exchange in the Bourse took the lead and three deflant members came to grief

ticipated in the assault, and peace was not declared until the pieces tributed among the assailants.

But the high cost of living caused most of the populace to refrain from the sport. Then, too, there were many who cluns to their straws with an air of deflanc Their demeanor clearly showed that they wouldn't be culed by the dictates o youthful fashion. They were the object sympathizing glances and inaudible comment. Some admitted that they had autumnal headgear hanging on the domestic hall rack and boasted of their independence. If they are happy, leave

hem alone. Most persons do not realize how the de-arture of the straws affects business genrally. The sign on the bootblack stand "Straw Hats Cleaned and Scoured," must go down, and all the celebrated cleaning concoctions at the corner drug store must be shelved in the storehouse until next summer. Therefore, there is a tinge of sadness in the exit of this once brilliant headpiece, which makes even homely men look natty and good-looking men hand

This ruises the question, "Who invent-ed the straw hat?" But let us not bother about it now. Wait until next summer, summer. With its departure went many Then let us hope that we will again blaze

BUSINESS MEN TO MEET

The business man's view of "The Effeet of the War on Business" will be set forth September 21, at a meeting of the Philadelphia Division, Sales Managers' Association, at Kugler's. The speakers will include John J. Gibson. Westingand three deflant members came to griet in the centre of the floor under their thatches of straw. The men were caught by a double flank movement while they by a double flank movement while they a frying to retreat into the corner H. B. Tyson, Quaker City Shirt Company, Namelstown.
